DATASHEET

CM1200 EMV by CONLAN

The CM1200 EMV is a combined keypad and RFID reader for Mifare tags and cards. This device supports EMV (Europay, MasterCard, and Visa) cards or mobile wallets as access control devices (not payment transactions supported).

The output is a Wiegand format as for other Conlan Wiegande readers. To be used in connection to other Wiegand controllers or the stand alone Wiegand Controller from Conlan

A SALTO GROUP COMPANY

TECHNICAL DATA:

Housing dimensions Classic (H x W x D): Weight with Mykey housing: • 115g - 4.05 Oz (with cable) Weight with Classic housing: • 160g - 5.64 Oz (with cable) Voltage range: • 9 to 24 VDC / -5% + 0% (should never exceed 24VDC). IP: • IP67 Environmental conditions: • Temperature: -35°C to 66°C; • Humidity: 0 to 95% Certifications: • CE Colors: • Black or White finish Power Cons. when Stand By • Average ~14 mA Power Cons. when Active • 4 Inputs: External Green LED, External Buzzer, Hold(1,2). (0V active)	Housing dimensions Mykey (with frame) (H x W x D):	• 50 mm x 77mm x 8.5 mm.
Weight with Classic housing: • 160g - 5.64 Oz (with cable) Voltage range: • 9 to 24 VDC / -5% + 0% (should never exceed 24VDC). IP: • IP67 Environmental conditions: • Temperature: -35°C to 66°C; • Humidity: 0 to 95% Certifications: • CE Colors: • Black or White finish Power Cons. when Stand By • Average ~14 mA Power Cons. when Active • Average ~23 mA Outputs: • 4 Inputs: External Green LED, External Red LED, External	S .	• 50 mm x 130mm x 8 mm.
Voltage range: • 9 to 24 VDC / -5% + 0% (should never exceed 24VDC). IP: • IP67 Environmental conditions: • Temperature: -35°C to 66°C; • Humidity: 0 to 95% Certifications: • CE Colors: • Black or White finish Power Cons. when Stand By • Average ~14 mA Power Cons. when Active • Average ~23 mA Outputs: • 2 Wiegand outputs Inputs: • 4 Inputs: External Green LED, External Red LED, External	Weight with Mykey housing:	• 115g - 4.05 Oz (with cable)
